

Husqvarna S 36 Propane

S 36 Propane is a very powerful propane HEPA dust extractor to match Husqvarna Soff-Cut 4000, Soff-Cut 2500, Soff-Cut 2000, Soff-Cut 150, as well as small to mid size electric, propane or other petrol grinders, shot blasters and shavers. This professional dust extractor is designed to meet strict demands. Equipped with two independently tested and certified HEPA H13 filters and a massive cone-shaped pre-filter. This results in superior dust collection, even of fine sanding and gypsum dust. Features include Jet Pulse pre-filter cleaning and air-flow manometer for filter control. The Longopac® bag hose system ensures simple, dust-free bag changes.

Motor

Motor/engine manufacturer	Honda
Output power (As rated by the engine/motor manufacturer)	10.2 hp

Specifications

Air Flow, CFM	285 cfm
Water lift	102 in

Dimensions

Product size length	1170 mm
Product size width	693 mm
Product size height	1590 mm
Weight	206 kg

Features for S 36 Propane

Efficient filtration system

The three separate filtering stages result in longer working time between filter cleaning. The dust is filtered through a cyclone chamber, which separate the heaviest parts, up to 95% of the dust, before the washable main filter. The HEPA micro filters are individual tested and certified to capture 99.99% of the remaining silica dust in the respirable fraction ($0.3\mu\text{m}$).

Durable design

Corrosion-resistant steel clamps, welded frame with dust bag platform and durable steel handle make it ready to serve for many years.

Easy and efficient filter cleaning

The Jet Pulse filter cleaning system ensures high continuous airflow thanks to easy and efficient cleaning of the conical main filter without opening the machine.

High Efficiency Particulate Air filter

Individually tested and certified HEPA micro filters catching 99.99% of the remaining silica dust in the respirable fraction ($0.3\mu\text{m}$).
