

Husqvarna PG 690 Propane

A propane drive version of our versatile PG 690 model. The propane drive makes your operation independent of electrical access and makes the PG 690 Propane the perfect choice for large outdoor concrete slabs. The new electric fuel injection system cuts fuel consumption and reduces the risk of freezing - while the exhaust catalyst makes for even lower emissions. Key components are sealed against dust and slurry for maximised reliability and low maintenance. It is easy to handle, tilt and operate with optional adjustable weights for extra grinding pressure. Combine your grinder with a Husqvarna propane driven dust extractor for maximum productivity.

Motor		Other	
Output power (As rated by the engine/motor manufacturer)	22 hp	Grinding width	26.4 in
		Grinding disc speed min	750 rpm
		Grinding disc speed max	1010 rpm
		Direction of rotation	One Direction
		Number of grinding discs	3
Dimensions			
Product size width	26.4 in		
Product size height	45.1 in		
Weight	1060 lbs		

Articles for PG 690 Propane

Features for PG 690 Propane

Sealed to last

Sealed grinding head with 1000 hrs service interval. No dust or water can intrude to damage components.

Adjustable grinding pressure

The optional weights are a must-have for every professional grinder, as they allow to adjust the grinding pressure in three pre-set positions. They also make tilting the machine that much easier.

Protected electronics

Dust sealed electrical cabinet with external cooling technology.

Hour and RPM meter

Possibility to log operating hours and read the RPM of the machine.
