

Husqvarna PG 830 P

A propane drive version of our largest and most powerful floor grinding machine PG 830. The propane drive makes your operation independent of electrical access and makes PG 830 P the perfect choice for large outdoor concrete areas. The fuel system reduces the risk of freezing when using liquid withdrawal propane. Key components are sealed against dust and slurry for maximized reliability and low maintenance. It is easy to handle, tilt and operate with standard adjustable weights for extra grinding pressure.

Hour and RPM meter

Possibility to log operating hours and read the RPM of the machine.

Adjustable grinding pressure

The weights are included and a must-have for every professional grinder, as they allow to adjust the grinding pressure in three pre-set positions. During tool change, the weights act as a counter balance which simplifies the tilting of the machine.

Sealed to last

Sealed grinding head with 1000 hrs service interval. No dust or water can intrude to damage components.

Ergonomic handle

Adjustable handle for better ergonomics.

FEATURES

- Sealed to last
- Adjustable grinding pressure
- Hour and RPM meter
- Ergonomic handle
- Always in control
- Fuel injection
- Exhaust catalyst

Technical Specifications

MOTOR	
Motor/engine model	FX850V
Output power (As rated by the engine/motor manufacturer)	27 hp
OTHER	
Grinding width	31.5 in
Grinding disc diameter	10.6 in
Grinding disc speed min	766 rpm
Grinding disc speed max	861 rpm
Direction of rotation	One direction
Number of grinding discs	3 pcs
DIMENSIONS	
Product size length	88.1 in
Product size width	32.7 in
Product size height	45.7 in
Weight	1235 lbs
PACKAGING	
Packaging length (Calc)	55 in
Packaging width (Calc)	35 in
Packaging height (Calc)	57.992 in
Packaging volume	1829 dm ³
